

INDUCORD / Glass fibre Industrial water hose with vulcanized glass fibre coating

Image not found or type unknown

Technical specifications:

It's suitable for a high temperature environment, as cooling water hose, or near to melting furnaces. It also works well in the glass and metal industry, as a transporter for cables and cooling water, or cable cooler. It's electrically insulated!

Operating pressure: 20 bar

Bursting pressure: 60 bar

Heat resistance: up to +100°C for water, up to +550°C for radiating heat from the environment

Interior: EPDM rubber, white, electrically conductive, smooth

Exterior: seamed glass fibre cover, white

Linings: fabric linings

Certain diameters are available from stock. Meantime, we hold the right of selling the stock in products.
