

Rubber expansion joint PN16 EPDM PN16 with flange, 130 mm installation length

Technical specifications:

It is suitable for compansion, vibration and shock absorption in the rigid tube system.

Heat resistance: -10°C / +100°C

Installation length: 130 mm

Material: EPDM

Medium: water

Flanges: from DN 32 to DN 150 PN 10/16, from DN 200 to DN 300 PN10 (according to EN1092)

Flange material: galvanized carbon steel

On stock at the manufacturer, short delivery time with regular shipments

DN	Compansion (mm)	Expansion (mm)	Lateral (mm)	Angular	Operating pressure (bar)	Article number
32	8	4	8	15°	16	756013
40	8	4	8	15°	16	756014
50	8	4	8	15°	16	755143
65	12	6	10	15°	16	755142
80	12	6	10	15°	16	756016
