

ZEBRA Conductive, corrugated virgin Teflon hose

Technical specifications:

The black stripe, which is made of a conductive material, makes possible the application of the hose in a flammable environment. It unites advantages of the conductive and the translucent PTFE.

It is transportable for mounting and clamping, even with straightened cufflinks.

Design: Virgin - transparent, Black - antistatic, Virgin with black antistatic spiral striping

Just for order!

Nominal inside Ø	Wall thickness (mm)	Min. bending radius (mm)	Max. operating pressure (bar)	Min. bursting pressure (bar)
3/8"	0,75	25	2	8
1/2"	0,89	50	2	8
